Works to trees covered by a TPO - the trees are a prominent landmark of the area, they are also encroaching on the property and surrounding properties. The immediate areas below suffer from lack of light, it is suggested that a crown raise will help with this. Crown raise to approx. 6m with nothing over 100mm removed. 17 Meadowside Road, Falmouth.

Recommend refusal as there is no issue with loss of light caused by the trees given their distance from the property and the canopy isn't damaging the structures. The lifting requested is quite severe versus the resulting benefit.
